ETAA's Class Reunion Assistance Program

The East Tech Alumni Class Reunion Assistance Program was designed for all classes borne out of East Technical High School to benefit in their class reunion efforts. The East Tech Alumni Association's (ETAA) tradition of giving back to our alma mater and the current students at East Tech High School is realized in this program.

This unique program serves as a vehicle to encourage class reunion committees to inherit the organization's theme of becoming scholarship driven and service oriented.

Hello Fellow Scarabs,

The East Tech Alumni Association enjoy helping our fellow Scarabs formulate their class reunion committees. Our mission is to encourage you to stand together as a strong committee and to make it work for your class. This will require commitment, dedication and loyalty to be successful in your growth of class leadership. You may agree to disagree, but keep respect for your fellow committee members up front and center. Bringing your classmates together to rekindle friendships will be an enjoyable challenge where you would benefit knowing that you played a significant role in making it all happen.

Remember to set goals, guidelines and to follow the rules set by your committee.

Please contact the Alumni Office @ 216.990.8068 to schedule a meeting with your class committee.

Scarabs Forever,

ETAA, Board of Directors
